

# Baker Electric

Established 1938

## LONG BEACH AIRPORT TERMINAL IMPROVEMENTS

The project includes a new, 11,000 SF baggage claim building, a 17,000 SF ticketing building with ticketing offices, pre-security restrooms, and additional check-in kiosks, as well as BSO spaces, restrooms, and 1,000 SF of core and shell pre-security concessions. The improvements also include renovation and recommissioning of the historical building terminal exterior facade and level 1 interior to the original 1941 terminal architectural design.
