## K-8 STEAM ACADEMY

K-8 STEAM Academy is a new school in the Temecula Valley Unified School District.

Baker Electric installed a 208-panel, rooftop renewable energy solution to make the new school more energy efficient which means lower electric bills and a lower carbon footprint.

## **Project Specs**

Temecula, CA Location:

System Size 178

Number of Panels 424

**Annual Energy Cost** 

Savings

null
